

# YIELDS

**These are the steps needed to use this report:**

First go into Yield Master Maintenance to enter the items and factors as listed below.

Run a yield report for a period that an inventory was completed and review the yield for each item.

Tip: Laminated the colorized sheet and hang in the salad and prep areas.

Each week run a yield report, critique the items for each area, write a quick action plan, post & communicate.

As you can see a handful of employees have control over the large majority of yield items, which adds to a lot \$ on stat.

This group is primarily controlled by Calibration Procedures

Primarily controlled by Grill/Prep Procedures

Primarily controlled by Specialty Coffee Procedures

Primarily controlled by Prep Person Procedures
